A novelist, poet, literary critic and anthropologist, Andrew Lang is best known for his publications on folklore, mythology and religion; many have grown up with the 'colour' Fairy Books which he compiled between 1889 and 1910. This three volume set presents a selection of his work in these areas. The first volume covers the general and theoretical aspects of Lang's work on folklore, mythology and anthropology along with the tools and concepts which he used in his often combative contributions to these inter-related disciplines. As a companion to the first volume, the second is comprised of various case studies made by Lang, ranging from 'The Aryan Races of Peru' and

'The Folk-lore of France' to 'Irish Fairies' and 'The Ballads, Scottish and English'. The third volume arranges his literary criticism, first by geo-cultural context and then chronologically. It begins with Lang's views on the nature and purpose of fiction, then presents samples of his work on some of the most important authors in the respective canons of French, American, Scottish and English literature including Victor Hugo, Edgar Allan Poe, Robert Burns and Charles Dickens among many others, mainly of the nineteenth century. Collectively, the General Introduction to the set and the Introductions to the individual volumes offer a thorough overview of Lang's work in an astonishing variety of fields, including his translation work on Homer and his contributions to historiography (particularly Scottish). The Introduction to Volume III sets Lang within the context of the literature of his times, comparing and contrasting him with significant contemporaries. Headnotes to the individual items are of varying length and provide more detail on specific topics, and explanatory notes supply unique intellectual comment rather than merely factual information.

This creepy, compact anthology includes four of Edgar Allan Poe's most popular tales of terror—The Masque of the Red Death, The Tell-Tale Heart, The Cask of Amontillado, and The Black Cat. Also including six haunting poems and a biography on Poe, this miniature volume is the perfect introduction to the Master of the Macabre.

"The Cask of Amontillado" is one of Edgar Allan Poe's most enduring works. This is a collection of his greatest tales of grime and darkness, with his poem, "The Raven," included as a bonus. Naturally, there is debate about which of Poe's stories are really his greatest ones, with much having to do with one's personal preference. Still, the fifteen included in this edition are undoubtedly strong contenders for the distinction. Included short stories in this volume: "The Tell-Tale Heart," "The Cask of Amontillado," "The Fall of the House of Usher," "The Pit and the Pendulum," "The Black Cat," "The Murders in the Rue Morgue," "The Purloined Letter," "Ms. Found in a Bottle," "The Facts in the Case of M. Valdemar," "The Premature Burial," "The Masque of Red Death," "The Balloon Hoax," "William Wilson," "The System of Dr. Tarr and Prof. Fether," and last but not least, "Hop Frog."

"The Cask of Amontillado" (sometimes spelled "The Casque of Amontillado") is a short story, written by Edgar Allan Poe and first published in the November 1846 issue of Godey's Lady's Book. The story is set in a nameless Italian city in an unspecified year (possibly sometime during the eighteenth century) and concerns the deadly revenge taken by the narrator on a friend who he claims has insulted him. Like several of Poe's stories, and in keeping with the 19th-century fascination with the subject, the narrative revolves around a person being buried alive – in this case, by immurement.

After its publication in 1986, Stephen King's novel *It* sparked sequels, remakes, parodies and solidified an entire genre: clown horror. Decades later, director Andy Muschietti revitalized King's popular novel, smashing all box office expectations with the release of his 2017 film *It*. At the time of its release, the movie set the record for the world's highest-grossing horror film. Examining the legacy of the controversial cult novel, the 2017 box office sensation and other incarnations of the demonic clown Pennywise, this collection of never-before-published essays covers the franchise from a variety of perspectives. Topics include examinations of the carnivalesque in both the novel and films, depictions of sexuality and theology in the book, and manifestations of patriarchy and the franchise, among other diverse subjects.

Seminar paper from the year 2012 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Wuppertal (Fachbereich Geistes- und Kulturwissenschaften), course: Short Stories of the American Renaissance, language: English, abstract: Looking at the representation of Edgar Allan Poe in the works of literary scholars reveals an ambivalent positioning. While some celebrate him as one of the most ingenious writers in America, if not in the world, others reject him for the fact that they consider him racist, sexist, elitist and anti-democratic. However, both sides are – in one way or the other – fascinated by Poe and his works, who has thus become one of the most discussed American authors. This paper will examine a specific part of Poe's manifold bibliography, namely a selection of short stories, and work out how names are used to establish, convey or support a certain attitude or underlying meaning. Yet the objects of investigation are not necessarily solely names of the characters, since Poe has also assigned certain names to, for instance,

buildings (in *The Fall of the House of Usher*) or beverages (in *The Cask of Amontillado*), which are not less important to the respective stories than the characters' names and are therefore to be taken into consideration as well. In order to assume a certain theoretical background, this paper will start with a brief description of the general way in which Edgar Allan Poe wrote (and intended to write) literary texts in order to help to estimate which relevance should be assigned to specific details (names). A second theoretical section deals with the overall function of names in literature. What follows is the analytic part of this paper, namely the analysis of the significance of certain names in four of Poe's short stories. The analysis will start with *The Fall of the House of Usher* as both one of the most famous and one of the most controversially discussed of Poe's tales and deal with the way how names support the story's interpretation. The next section will deal with *The Cask of Amontillado*, adding special emphasis on the reliability of the narrator, based on the way in which the story is told and names are used. Thirdly, the center of attention will be Poe's *The System of Doctor Tarr and Professor Fether* and, accordingly, political references which are conveyed by the use of names. Finally, *The Mystery of Marie Rogêt* is analyzed as an example of a story which was written after real events. Here, it is especially rather the question for the reasons of the renaming than the question for the origin of the respective name (which in this case is not only obvious, but also explained in the story itself. Edgar Allan Poe was considered something of an eccentric writer in his day, but that was mainly because he was far ahead of his time. Poe was such a versatile trailblazer

that he proved instrumental in developing the detective, sci-fi, and horror genres. The stories collected here represent an excellent selection of his most important and emotionally impactful creations.

A complete collection of annotated lyrics by the prolific rock band, published to coincide with their fortieth anniversary, features literary, historical, and cultural references for every original song, in a volume complemented by performance statistics, thematic essays, and numerous illustrations. 200,000 first printing.

Since their first publication in the 1830s and 1840s, Edgar Allan Poe's extraordinary Gothic tales have established themselves as classics of horror fiction and have also created many of the conventions which still dominate the genre of detective fiction. Yet, as well as being highly enjoyable, Poe's tales are works of very real intellectual exploration. Abandoning the criteria of characterization and plotting in favour of blurred boundaries between self and other, will and morality, identity and memory, Poe uses the Gothic to question the integrity of human existence. Indeed, Poe is less interested in solving puzzles or in moral retribution than in exposing the misconceptions that make things seem 'mysterious' in the first place. Attentive to the historical and political dimensions of these very American tales, this new critical edition selects twenty-four tales and places the most popular - 'The Fall of the House of Usher', 'The Masque of the Red Death', 'The Murders in the Rue Morgue; and 'The Purloined Letter' - alongside less well-known travel narratives, metaphysical essays and political satires.

Arthur Conan Doyle has long been considered the greatest writer of crime fiction,

and the gender bias of the genre has foregrounded William Godwin, Edgar Allan Poe, Wilkie Collins, Émile Gaboriau and Fergus Hume. Edgar Allan Poe's stories and poems are among the most haunting and indelible in American literature, but critics for decades persisted in seeing Poe as an anomaly, or even an anachronism. His works, with their bizarrely motivated characters and mysterious settings, did not seem to be a part of the literature of early nineteenth-century America. Critics realize now, though, that Poe was even more a part of the contemporary American literary scene than many of his more

“nationalistic” peers, and that in much of his work Poe was making commentaries on slavery and Southern social attitudes, technology, the urban landscape, political economy, and other subjects. This Broadview Edition includes a selection of Poe’s poems, tales, and sketches in such diverse modes of writing as tales of the supernatural and psychic conflict, satires and hoaxes, science fiction and detective fiction, and nonfiction essays on literary and social topics. These are supplemented by a selection of contextual documents—newspaper and magazine articles, treatises, and other historical texts—that will help readers understand the social, literary, and intellectual milieus in which Poe wrote.
